

Before Burning Pine Needles

Take a minute and make a courtesy call to the
Yosemite Emergency Communications Center

at 📞 **(209) 379-1999**

to inform them that you'll be burning pine
needles in Yosemite West.

(They'll ask for your name and street address.)

This call may save valuable agency resources if anyone who is in Yosemite West and is unfamiliar with pile burning calls and reports a non-existent "wildfire." It already happened this spring, so be a good neighbor and help the agencies who protect us and our property.

Always call the **Mariposa County Burn Day Information Line** at 📞 **(888) 440-2876** to verify what daily permit requirements are and to find out if it's a permissible burn day in Mariposa County.
